

British Society of Paediatric Gastroenterology Hepatology and Nutrition

Paediatric Gastroenterology, Hepatology and Nutrition (PGHAN) Taster Day

**Friday, June 15th 2018,
Postgraduate Centre, Queen's Medical Centre, Nottingham**

This Taster Day in June 2018 will provide trainees and allied health professionals an opportunity to hear about opportunities for specialty training in Gastroenterology and Hepatology and to meet established consultants and allied professionals in these specialties. The aim of the programme as in previous years is to highlight recent advances in the field of Paediatric Gastroenterology, Hepatology and Nutrition with an emphasis on training, and inspire younger professionals to pursue this specialty as a chosen career. It will also provide application and interview advice for those intending to apply for the next round of training posts in 2018

On behalf of BSPGHAN, I would like to express our sincere thanks to all our sponsors for their generous support provided for the Taster Day in June 2018. Without the support of our sponsors it would not be possible to organise such an opportunity.

A handwritten signature in black ink, appearing to read 'David Devadason', is written on a light-colored rectangular background.
