

Dear all

I would like to invite you to our 3 liver centres' education day this year, which will be co-located with the Annual BASL meeting at York University. The committee has agreed to provide us with a room on **20<sup>th</sup> September 2018** am (9-12).

This will give us the opportunity to attend the BASL meeting as well which usually has an excellent programme. BASL has recently introduced the Alex Mowat Lecture which is planned on the 20<sup>th</sup> in the afternoon session.

The Theme for the education day this year will be on **Diagnosis and management of Portal Hypertension** . Programme will be circulated later.

If you have any interesting cases of Portal hypertension to present, please let me know.

Please **save the date** in your diaries. Invitation is open to Hepatology/gastro trainees, gastroenterologists with Hepatology interest and the specialist nurses so please encourage your teams to attend.

Best Wishes

Mona
