Nutrition in Gastroenterology

UCL Great Ormond Street Institute of Child Health, London

This course will cover some of the complex clinical problems that Dietitians are faced with today. There will be time for discussion and sharing of information during the day to enable best practice to be discussed in a friendly forum.

Topics include:

- Low FODMAP diets in the Paediatric Population
- Practical PN requirements
- Managing blenderised diet in the acute and community settings
- What's new in pancreatitis?

Who should attend?

- Dietitians
- Nurses
- Doctors working in Paediatric Gastroenterology.
