please scan the QR code.

WHAT HAPPENS DURING THE COURSE?

Lectures include current and new techniques with interactive hand-on sessions allowing delegates to learn the different techniques of PEG insertion in children, including:

- Pull through technique (Corflo PEG)
- Push technique (single stage)
- Gastrojejunal insertion (PEGJ) vs button device)
- Laparoscopic-assisted direct PEJ insertion (LAPEJ)
- Case discussions.

WHAT ARE THE LEARNING OPPORTUNITIES?

Familiarisation of PEG insertion with practical hands-on sessions and recorded theatre sessions with subsequent case discussion.

PROVISIONAL AGENDA

09:00 - 9:30

09:30 - 10:30

10:30 - 10:45

10:45 - 12:00

12:00 - 12:30

12:30 - 13:30

13:30 - 15:00

15:00 - 17:00

Arrival (Coffee available at arrival)

Different type of gastrostomies & techniques

- Gastrostomies – endoscopic approach -

Dr Dominique Schluckebier, Professor Mike Thomson

o PEG (Corflo) PEGJ

o Single stage

o Caecostomy

Coffee break

- Gastrostomies – the surgical approach – Mr Sean Marven,

Professor Mike Thomson

o Laparoscopic assisted percutaneous endoscopic gastrostomy & jejunostomy

Intro to stations

Lunch

Hands on gastrostomy insertion

- PEG

- Single stage

- PEGJ

- Direct gastrojejunal button

Case discussion (registered cases from theatre)
